AMBASSADOR

Has made no less than 12,345,678 litres of drinking water available via MADE BLUE in 2020. That means clean drinking water for at least 169 people for 10 years or longer.

To this end, the MADE BLUE Foundation invests in water projects in countries with severe water scarcity.

In this way, at least the same number of litres of clean drinking water will become available again for people who currently do not have access to safe drinking water.

Ambassador mirrors the water consumption of her production process in the Netherlands.
